Muscle fibers can broadly be divided into 3 muscles types: skeletal, cardiac, and smooth muscle. This summary discusses the basic anatomy of skeletal muscle, key features of skeletal muscle...

### Muscular System Anatomy: Overview, Gross Anatomy ...

Broadly considered, human muscle—like the muscles of all vertebrates—is often divided into striated muscle (or skeletal muscle), smooth muscle, and cardiac muscle. Smooth muscle is under involuntary control and is found in the walls of blood vessels and of structures such as the urinary bladder, the intestines, and the stomach.
